**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of claims 1-7 and 7-9 in the reply filed on 05/05/2006 is acknowledged. The traversal is on the ground(s) that a search and examination of the non-elected claims would not place an undue burden on the examiner because claims are very similar. This is not found persuasive because as stated in the restriction requirement the polymer of the non-elected invention can be made by processes different from the claimed processes.

2. The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1713

4. Claims 1-5 and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Zhou, Liquid Rubber: Synthesis and Application, date: 04/11/2002. See Scheme 5.
